

**THE JUDICIARY, STATE OF HAWAII
NOTICE OF TO EXEMPTION
FROM HRS CHAPTER 103D**

TO: Chief Procurement Officer

FROM: Human Resources
Name of Requesting Division/Program

Pursuant to HRS § 103D ---102 (b)(4) and HAR Chapter 3---120, The Judiciary requests to amend an exemption for the following:

<p>1. Describe the goods, services or construction:</p> <p>Production support and updates and fixes. Production support is necessary to deal with the day-to-day issues of both hardware and software used in running the Human Resource Management Systems (HRMS). Employee salary data is maintained in the HRMS system; its proper application affects the Judiciary's ability to timely and accurately pay employees. May include work on: security roles workflow, worklists, and reports maintenance Updates and fixes are not provided more frequently and HRMS images are being provided per year instead of large full-system upgrades being provided every four years. Images, updates and fixes that are determined to affect the Judiciary's software are installed and configured on-line. Images, updates, and patches must be applied to system components.</p>	
<p>2. Vendor/Contractor/Service Provider:</p> <p>Business Solutions Technologies, Inc.</p>	<p>3. Amount of Request:</p> <p>\$117,277.44</p>
<p>4. Term of Contract From: 07/01/2018 To: 06/30/2019</p>	<p>5. Prior Judiciary Procurement Exemption No. (if applicable):</p> <p>JE18-10</p>
<p>6. Explain in detail why it is not practicable or not advantageous for the Program/Division to procure by competitive means:</p> <p>The consultant for the Judiciary needs to be knowledgeable with PeopleSoft software as well as possess a keen understanding of the Judiciary's environment. We rely upon Business SolutionTechnologies (BST) to provide this expert assistance. For regular updates and fixes that are provided by PeopleSoft, BST is able to evaluate and apply only those which will affect the Judiciary positively; thereby eliminating down time for updates and fixes that will have no benefit. Over the many years, there have been customizations applied to Peoplesoft due to changes in legislation, in tax laws as well as changes in procedures within the department. With the intimate knowledge of how Peoplesoft works and how customizations have been applied, BST is able to quickly isolate and fix problems that occur during the course of a work day as well as recommend future actions because of their history with the Judiciary.</p> <p>Changing consultants on this kind of project would be counterproductive because planning and knowledge transfer regarding the Judiciary work processes and customizations would lead to lost time and money. Without prior knowledge and experience with the many customizations to panels, fields and rules, maintenance will be extremely difficult; thus making it impracticable for another vendor to be selected.</p>	
<p>7. Explain in detail, the process that will be or was utilized in selecting the vendor/contractor/service provider:</p> <p>In 2001, the committee for the HRMS project has reviewed (David Maeshiro, Dennis Koyama, and Wade Hiraishi) the statement of qualification for services related to the implementation of the PeopleSoft HRMS and found DataHouse to be the most qualified based on the criteria that was established. Based on this, it was recommended and approved to procure the professional services of DataHouse which at the time was on the State of Hawaii Listing of vendors.</p> <p>The Judiciary first contracted with DataHouse in FY01. They assisted the Judiciary with the implementation of the revised Human Resources Intranet pages as well as with the integration of the employee self-service pages.</p> <p>Business Solution Technologies (BST) was the subcontractor to DataHouse and has been doing all of the other PeopleSoft work. It was recommended in the best interest of the Judiciary to contract directly with BST for production support thereafter.</p>
