**ANNUAL REPORT TO THE THIRTIETH LEGISLATURE  
2020 REGULAR SESSION**

**ON  
ACT 40, SESSION LAWS OF HAWAI'I 2004  
HRS § 601-21**

**A Report on Statewide Substance Abuse Treatment  
Monitoring Program**

HRS § 601-21 requires the Judiciary to: (a) collect data in accordance with HRS § 321-192.5 from any circuit court, adult probation, and any provider of substance abuse treatment that provides substance abuse treatment to persons served through public funds administered by the judiciary; and (b) include in the contract with any treatment provider all criteria established by the department of health pursuant to HRS § 321-192.5 to determine whether the treatment provider is achieving success in treating individuals with substance abuse.

The Judiciary's efforts to comply with the above-referenced statute are outlined below.

- The Judiciary continues to include language in its Requests for Proposals and existing contracts with substance abuse treatment providers to hold programs accountable for complying with Department of Health (DOH) criteria to determine success in treating individuals with substance abuse.
- The Judiciary received available data taken from the Web Infrastructure for Treatment Services (WITS) information system. Reports from WITS are attached. It is noted that some of the Judiciary's contracted providers were not DOH Alcohol and Drug Abuse Division (ADAD) providers, thus numbers were taken for these programs from Caseload Explorer (CE), the Judiciary statewide Adult Client Services Branch (ACSB) case and management information system for probation. These statistics reflect reports received as of June 30, 2019.

It is noted that the data provided by ADAD is based on information provided by treatment providers. Some of this information may not match with what is contained in CE as there may be inconsistencies in the way data is entered and interpreted.

The Department of Health ADAD/WITS reported data in the tables shown on the following pages.

The following FY19 statewide probation data was also obtained from CE:

- 535 unduplicated adults entered 576 programs with 614 admits in FY19. The higher number of admits reflects clients being admitted to treatment more than once during the year.

- 5,380 offenders were active in treatment during the same year.
- Of the 5,380 offenders, 4,169 were males; 1,186 were females; and 25 were unspecified.
- Treatment services include assessments, education, motivational enhancement, outpatient, intensive outpatient, day and residential care, with continuing care following core treatment. Special needs, including those for pregnant and parenting women and individuals with co-occurring (mental health and substance abuse) disorders, have been addressed by treatment programs.
- Through the efforts of the Interagency Council on Intermediate Sanctions (ICIS), programs have been evaluated using the Correctional Program Checklist (CPC) to determine how much programs are in alignment with the application of best practices in working with offenders. Most programs are beginning to look at their programming and are working toward adopting and adapting to these principles.
- The CPC assessment team continues to be active in supporting the vendors as they begin to implement some of these practices, by providing opportunities for greater interaction between programs and the criminal justice system through training. Probation officers are consistently transmitting Level of Services Inventory-Revised data which provides vendors with the risk (to recidivate) classification of referred offenders to address dosage and treatment placement.
- Clients from the Neighbor Islands had to travel to O'ahu or Maui for residential type placements, reflecting the need for higher levels of substance abuse treatment on all islands. There are no residential treatment programs on Hawai'i Island, Kaua'i, Lāna'i, and Moloka'i.
