---	---

6. Explain in detail why it is not practicable or not advantageous for the Program/Division to procure by competitive means:
Oahu Air Conditioning (OAC) is currently under contract J18030 and is totally responsible to maintain systems for complete and satisfactory operations of the AC and ventilation systems of Judiciary facilities on Oahu in accordance with the best commercial standards. By OAC's contract, the firm shall repair or replace with new all parts all worn, failed or doubtful components to ensure satisfactory operation of the AC and ventilation systems.

7. Explain in detail, the process that will be or was utilized in selecting the vendor/contractor/service provider:
OAC was selected to do this work through an extension to their existing service contract. Under their existing contract, they are obligated to replace failed parts and systems. The company has been servicing the AC and ventilation systems in the facility since 2017 and its staff are familiar with both the systems and Judiciary operations in Ali'iolani Hale. Being intimately familiar with the locations and conditions of our equipment and systems, OAC has facilitated access and provided substantial background information to our Consultants. OAC has cobbled together interim repairs to keep our systems in operation while replacement systems are designed and budgeted. Their attention has been timely and approach responsive to the limited resources Judiciary has been able to apply in the short term while we work toward long-term upgrades.

8. Identify the primary responsible staff person(s) conducting and managing this procurement. (Appropriate delegated procurement authority and completion of mandatory training required).
