

7. Describe the efforts and results in determining that this is the only vendor/contractor/service provider who can provide the goods, services or construction:

Alert Alarm has been the proprietary company here on island with the rights to the use of the UL-2050 which is the system we are currently using, and have been for quite a while. The system and monitoring staff have provided effective and safe security measures essential to the safety conditions within our courtrooms, cell blocks and overall facility. District Court has had a longstanding relationship with Alert Alarm as sole provider of our Security system. Due to their extreme knowledge, certification and technical skill with monitoring and managing their installed equipment it would not be cost effective to have another vendor

8. Alternate source. Describe the other possible sources for the goods, services, or construction that were investigated but did not meet the department's needs.

Alert Alarm is the only locally certified vendor and proprietary owners of our integrated Security, Fire and Duress system that manage a UL-2050 Security Monitoring System. Seeking out other vendors to provide this type of service was futile. Other providers of security sources such as "CAM Security" do not have the equipment needed to secure our facilities in a safe and effective manner.

Alert Alarm is the only vendor certified to provide the services that are essential in maintaining our security measures already in place in our courthouses, we are requesting to enter into the contract covering the period 07/01/23 - 06/30/24. The annual cost for Kauikeaouli Hale, Ewa, Kaneohe and Wahiawa courthouses would be \$8,049.16 +tax.

9. Identify the primary responsible staff person(s) conducting and managing this procurement. (Appropriate delegated procurement authority and completion of mandatory training required).
