

**THE JUDICIARY, STATE OF HAWAII
NOTICE AND REQUEST FOR SOLE SOURCE**

TO: Chief Procurement Officer

FROM: Supreme Court
Name of Requesting Division/Program

Pursuant to HRS § 103D -306 and HAR Chapter 3-122, Subchapter 9, The Judiciary requests sole source approval to purchase the following:

1. Describe the goods, services or construction to be procured:
To install the horizontal cabling for the Judiciary's Integrated Security Camera Surveillance and Recording System (System) at Ali'iolani Hale. This cabling will power up 26 interior cameras, 17 gunshot detection devices and 41 public address speakers, which will be placed at strategic locations throughout the building. The Judiciary shall front the costs of this project from its operating budget which will then be reimbursed back to the supreme court fiscal office by way of a federal grant. See Section 6 below.

2. Vendor/Contractor/Service Provider Name:
Security Resources Pacific, Inc.
99-1191A Iwaena Street
Aiea, HI 96701

3. Amount of Request:
\$180,628.20

4. Term of Contract (shall not exceed 12 months), if applicable:
From: 07/10/2023 To: 06/30/2024

5. Prior Judiciary Procurement Sole Source No. (if applicable):

6. Describe in detail the following:

a. The unique features, characteristics, or capabilities of the goods, service or construction.
In September 2016, the Judiciary was awarded a \$175,000 grant from the Homeland Security Grant Program (HSGP) through the State Department of Defense (DOD), to begin Phase 1 of the installation of the System. In September 2018, the Judiciary was awarded \$200,000 for Phase 2. Both phases were managed by the DAGS, and Security Resources Pacific (SRP) was awarded as the security contractor. In September 2020 and 2022, the Judiciary was awarded \$150,000 and \$160,000 from HSGP, respectively, which will cover the costs to install all the horizontal cabling at Ali'iolani Hale as mentioned above. Once Phase 3 is completed, the System will be integrated into the existing Proximity Access and Identification Card System (PAICS) at both buildings to maximize the security capabilities and potentials of each system. The importance of integrating is twofold: (1) If forced entry is detected, cameras located in that area will switch on automatically and start recording; (2) If motion is detected, the System will send an alert to the PAICS to automatically display preprogrammed building floor plans on a monitor showing the exact location of the incident. Corresponding camera(s) in the area turn on allowing law enforcement to view the situation and determine the appropriate response. The System will also be integrated into the Keyboard Alert System (KAS) which utilizes existing desktop keyboards as a duress alarm, to provide employees with a means to quickly and silently notify first responders up to 1,000 users, or more if so desired. The current capabilities mentioned above will also be bolstered by the addition of the Judiciary Gunshot Detection Program (JGDP). The JGDP consists of thirty-two (32) gunshot detection devices that are able to detect the sound of a gunshot. These devices will be strategically placed on the interior and exterior walls of both buildings, and be integrated to work in unison with the cameras of the System. In an Active Shooter Event, the devices would locate the sound of a gunshot and corresponding cameras would provide law enforcement with live footage of the shooter, while recording the incident in real time.

b. How the unique features, characteristics or capabilities of the goods, service or construction are essential for the department.
Originally installed at Ali'iolani Hale in January 2005 and expanded to the Kapuaiwa Building in February 2006, the PAICS allows users access by scanning their Judiciary issued ID badges with any access control reader programmed for authorized entry. SRP has been the only security contractor for the System since 2006. As such, SRP has the knowledge, technical expertise and engineering necessary to fully service, maintain and support all aspects of the System. For the past 17 years, SRP has consistently performed well during service, troubling shooting, repair or expansion work, and responding to these needs in a timely manner. SRP currently holds the maintenance contract for the System and has held this contract every year since 2007. The potential of this project will create critical infrastructure enhancements needed to allow the Judiciary the ability to provide the Department of Public Safety (DPS) the tools and technology necessary to improving and increasing courthouse security at Ali'iolani Hale, Supreme Court, and the Kapuaiwa Building, Intermediate Court of Appeals, where the core leadership of the third branch of government resides. The sharing of information will create and provide timely, detailed, and actionable intelligence. As a result, DPS and other first responders will be better able to provide a fast and accurate response maximizing public safety resources during emergency situations.

7. Describe the efforts and results in determining that this is the only vendor/contractor/service provider who can provide the goods, services or construction:

Please see attached letter from Mr. Jeff Stout, VP of Sales Matrix and PremiSys, manufacturer of the PremiSys software. In summary, Mr. Stout verifies that SRP is the only company in Hawaii that is authorized, certified, and trained to provide, install, service and maintain the existing PremiSys Security Management system, the PremiSys Access Control Management System, the PremiSys Interface to the American Dynamics Video Edge system and the related interface software and hardware.

8. Alternate source. Describe the other possible sources for the goods, services, or construction that were investigated but did not meet the department's needs.

SRP is the only company in Hawaii that is authorized, certified, and trained to provide, install, service and maintain the existing PremiSys Security Management system, the PremiSys Access Control Management System, the PremiSys Interface to the American Dynamics Video Edge system and the related interface software and hardware. PremiSys will not provide products, technical assistance or any other support to unauthorized companies or individuals who may attempt to maintain or service your system. Security Resources and PremiSys have invested considerable resources to develop strong support for our products and systems in your region.

9. Identify the primary responsible staff person(s) conducting and managing this procurement. (Appropriate delegated procurement authority and completion of mandatory training required).

*Point of contact (Place asterisk after name of person to contact for additional information).

Name	Division/Program	Phone Number	email address
Curt Shibata*	Supreme Court	539-4730	Curt.M.Shibata@courts.hawaii.gov

Department shall ensure adherence to applicable administrative and statutory requirements, including HAR chapter 3-12, Subchapter 15, Cost Pricing Data, if required.

All requirements/approvals and internal controls for this expenditure is the responsibility of the Division/Program. I certify that the information provided above is, to the best of my knowledge, true and correct.

/s/ Elizabeth Zack
