Dear Mr. Taniguchi,

This letter is in reference to the distribution, service, and support of the PremiSys Security Management system, PremiSys Access Control Management system, and the American Dynamics Video Edge management system, in the State of Hawaii. This system seamlessly integrates security and building maintenance devices into a dynamic Graphical User Interface operating platform. This level of integration requires that the security integrator who maintains and supports your system be fully capable of servicing all aspects of your system including the platform that manages the entire system, and ancillary equipment installed on your system. In addition, you will need to have an integrator that is supported by PremiSys in the event there is a system problem that requires our technical assistance or engineering. With the expertise required to maintain your existing systems you will definitely want an integrator in the state that can respond to your requests for service in a timely manner.

Security Resources is the only company in Hawaii that is authorized, certified, and trained to provide, install, service and maintain the existing PremiSys Security Management system, the PremiSys Access Control Management System, the PremiSys Interface to the American Dynamics Video Edge system and the related interface software and hardware. PremiSys will not provide products, technical assistance or any other support to unauthorized companies or individuals who may attempt to maintain or service your system. Security Resources and PremiSys have invested considerable resources to develop strong support for our products and systems in your region.

Please contact me if you have any further questions.

Sincerely,

Jeff Stout
VP of Sales Matrix and PremiSys
