

**THE JUDICIARY, STATE OF HAWAII  
NOTICE AND REQUEST FOR SOLE SOURCE**

TO: Chief Procurement Officer

FROM: Office of Project Management  
 \_\_\_\_\_  
*Name of Requesting Division/Program*

Pursuant to HRS § 103D -306 and HAR Chapter 3-122, Subchapter 9, The Judiciary requests sole source approval to purchase the following:

1. Describe the goods, services or construction to be procured: Install security access control card readers in authorized personnel spaces to deter public access at Ka'ahumanu Hale. The door(s) are to be prepared by the vendor to function as secured access control sites and interface with the existing security system controller.	
2. Vendor/Contractor/Service Provider Name: Security Resources Pacific, Inc. 3210 Ualena St. Honolulu, HI 96819	3. Amount of Request: \$ 13,254.34
4. Term of Contract (shall not exceed 12 months), if applicable:  From: 03/01/2024                      To: 02/28/2025	5. Prior Judiciary Procurement Sole Source No. (if applicable):  N/A

6. Describe in detail the following:

a. The unique features, characteristics, or capabilities of the goods, service or construction.  
 Ka'ahumanu Hale utilizes the Premisys Access Control Management (ACM) System and has a current maintenance agreement with Security Resources Pacific, Inc. to maintain the proper functionality of the Premisys ACM System. Their system also integrates all of the security and camera systems within the Circuit. The First Circuit has an integrated security management and monitoring system in all of its courthouses. The system includes: the PremiSys Security Management system, PremiSys Access Control Management system, and the American Dynamics Video Edge Victor management system. This system seamlessly integrates security devices into a dynamic Graphical User Interface operating platform. This level of integration requires that the equipment installer is fully capable to install equipment that will integrate into our existing security system. The Judiciary for all these reasons needs an installer that is supported by PremiSys in the event there is a system problem that requires technical assistance or engineering and possesses the expertise required to install and maintain our existing systems.

b. How the unique features, characteristics or capabilities of the goods, service or construction are essential for the department.  
 The only vendor in Hawaii that can provide all necessary services across our system is Security Resources. They are the only company in Hawaii that is authorized, certified, and trained to provide, install, service and maintain the existing PremiSys Security Management system, the PremiSys Access Control Management System, the PremiSys Interface to the American Dynamics Video Edge system and the related interface software and hardware. The sole source letter notes that PremiSys will not provide products, technical assistance or any other support to unauthorized companies or individuals who may attempt to maintain or service our system.

7. Describe the efforts and results in determining that this is the only vendor/contractor/service provider who can provide the goods, services or construction:

We made a request to the company that has the proprietary rights to Premisys systems as described above to ask what companies were authorized and trained to service, maintain and install the systems in Hawaii. Their response was that there was only one company in Hawaii and that was Security Resources Pacific, Inc. They further stated that PremiSys will not provide products, technical assistance or any other support to unauthorized companies or individuals who may attempt to maintain or service our system.

8. Alternate source. Describe the other possible sources for the goods, services, or construction that were investigated but did not meet the department's needs.

Per the attached sole source letter they are the only company in Hawaii that is authorized, certified, and trained to provide, install, service and maintain the existing PremiSys Security Management system, the PremiSys Access Control Management System, the PremiSys Interface to the American Dynamics Video Edge system and the related interface software and hardware. The sole source letter notes that PremiSys will not provide products, technical assistance or any other support to unauthorized companies or individuals who may attempt to maintain or service our system.

9. Identify the primary responsible staff person(s) conducting and managing this procurement. (Appropriate delegated procurement authority and completion of mandatory training required).

\*Point of contact (Place asterisk after name of person to contact for additional information).

Name	Division/Program	Phone Number	email address
Roland Lagareta	Office of Project Management	8085394183	roland.g.lagareta@courts.hawaii.gov

Department shall ensure adherence to applicable administrative and statutory requirements, including HAR chapter 3-12, Subchapter 15, Cost Pricing Data, if required.

**All requirements/approvals and internal controls for this expenditure is the responsibility of the Division/Program. I certify that the information provided above is, to the best of my knowledge, true and correct.**

Roland Lagareta  
State of Hawaii Judiciary  
First Circuit Court

21.03.2023

Dear Mr Lagareta .

This letter is in reference to the distribution, service, and support of the PremiSys Security Management system, PremiSys Access Control Management system, and the American Dynamics Video Edge Victor management system, in the State of Hawaii. This system seamlessly integrates security and building maintenance devices into a dynamic Graphical User Interface operating platform. This level of integration requires that the security integrator who maintains and supports your system be fully capable of servicing all aspects of your system including the platform that manages the entire system, and ancillary equipment installed on your system. In addition, you will need to have an integrator that is supported by PremiSys in the event there is a system problem that requires our technical assistance or engineering. With the expertise required to maintain your existing systems you will definitely want an integrator in the state that can respond to your requests for service in a timely manner.

Security Resources is the only company in Hawaii that is authorized, certified, and trained to provide, install, service and maintain the existing PremiSys Security Management system, the PremiSys Access Control Management System, the PremiSys Interface to the American Dynamics Video Edge system and the related interface software and hardware. PremiSys will not provide products, technical assistance or any other support to unauthorized companies or individuals who may attempt to maintain or service your system. Security Resources and PremiSys have invested considerable resources to develop strong support for our products and systems in your region.

Please contact me if you have any further questions.

Sincerely,

Jeff Stout  
VP of Sales Matrix and PremiSys
