#### 5. ADDITIONAL SERVICES

Training: AMS will provide Agency personnel with training in the use of the Products. Any such training will be at no charge to Agency.

All Equipment Consumables: No charge per the GSA Schedule terms.

RB Calibration Fee: AMS will calibrate Remote Breath Equipment for a charge of \$50 Equipment unit.

Ethernet Communication: \$0.55 per Equipment unit, per day

#### 6 MOBILE APPLICATIONS:

TOUCHPOINT: TouchPoint is an AMS proprietary mobile application designed for use by Clients who are using AMS or other electronic monitoring devices under the Agency's supervision. AMS will provide the Agency with TouchPoint training. Clients will download TouchPoint to their cell phone and upon first use agree to the Mobile Application Terms and Conditions. The Agency will provide TouchPoint training to the Clients. If Agency is evaluating TouchPoint the evaluation period is 30 days from the Effective Date ("Evaluation Period") and TouchPoint will be provided at no charge during that time frame. After the Evaluation Period, if Agency continues to use TouchPoint, the price will be that as set forth below.

TouchPoint Price/Billing:

Per TouchPoint Client User, per month:

1 – 999: \$14.56

1,000 – 2,499: \$13.11

2,500 – 4,999: \$11.80

Billing: AMS will invoice the Agency monthly. Payment terms will be those as set forth in the Agreement. TouchPoint price is subject to change upon availability of additional features/function. AMS will contact Agency if the price changes and if the new price cannot be agreed on by Amendment on this Agreement, TouchPoint will become unavailable with 10 days prior notice.

5. Amended contract price for this request:

Not to exceed \$10,800, contingent upon confirmation of grant funding. Contract price is not being amended.

6. Explain in detail why the amendment(s) are necessary:

In 2012, University Health Partners of Hawaii, formerly University Clinical Education and Research Associates (UCERA), was contracted by the Judiciary to provide case management and research services for the DWI Court Program. During this year, UCERA purchased 20 Secure Continuous Remote Alcohol Monitor (SCRAM) Continuous Alcohol Monitoring (CAM) bracelet and modem sets to monitor DWI Court Program participants at a cost of \$1,500 per set. While UCERA no longer provides services to the Judiciary, the program retained all inventory purchased with grant funds, including the SCRAM CAM equipment. The current price quote to turn on SCRAM CAM bracelets to monitor a client is \$4.58-\$5.66 per day (dependent upon whether a landline or wireless base station is in use), with optional additional services at an additional cost.

It would not be practicable or advantageous for the program to use another vendor, as the rate would be more expensive since we would have to rent or purchase their equipment in addition to the cost of daily monitoring. Also, the DWI Court Program has used the SCRAM CAM device since 2013 and it uniquely meets the monitoring needs for our target population, who need to be monitored for alcohol use. SCRAM CAM is the only evidential instrument on the market that utilizes the proven science of transdermal testing to measure alcohol consumption. It is the only transdermal alcohol testing system that employs an active controlled sample delivery system using the industry-validated Dräger fuel cell. As a result, SCRAM CAM technology produces a quantifiable Transdermal Alcohol Concentration curve that is able to distinguish consumed alcohol from topical or environmental sources of alcohol.
