To Whom It May Concern:

Astrophysics Inc. is the exclusive developer and manufacturer and sole source supplier and warranty service provider of the XIS line of X-ray inspection systems in the United States. Within the United States, the XIS line of inspection systems is sold only as a direct transaction between Astrophysics Inc. and the end-user.

Due to proprietary components of the XIS, only Astrophysics certified service technicians can install and provide warranty services for these systems using certified products, accessories and software. Damage resulting from service, testing, adjustment, installation, maintenance, alteration, or modification by someone other than an Astrophysics certified service technician or using non-Astrophysics branded or certified products, accessories, software, or peripheral equipment are excluded from coverage and may void the warranty in its entirety.

We invite you to email our Service Department at <u>Service@AstrophysicsInc.com</u> to verify the validity of any entity claiming to be an Astrophysics certified service provider.

Best Regards,

Mark Zayek

Chief Operating Officer

Astrophysics Inc.
