## THE JUDICIARY, STATE OF HAWAII NOTICE AND REQUEST FOR SOLE SOURCE

TO: Chief Procurement Officer

FROM: <u>1CC Client Services – DCCA Office – Court Operations</u>

Name of Requesting Division/Program

Pursuant to HRS § 103D -306 and HAR Chapter 3-122, Subchapter 9, The Judiciary requests sole source approval to purchase the following:

1. Describe the goods, services or construction to be procured:

UPS Replacement and Relocation from electrical room to Room 103D at the Juvenile Detention Facility (JDF). Includes manufacturer startup & commissioning onsite; Demo of original unit after the cutover

## ACS Miscellaneous:

Cabling and UPS Tie-in; Rack Removal and ACS Power Split; Disposal and MISC Mounting Hardware.

2. Vendor/Contractor/Service Provider Name:		3. Amount of Request:
Security Resources Pacific, Inc.		
3210 Ualena Street		\$97,192.84
Honolulu, HI 96819		
4. Term of Contract (shall not exceed 12 months), if applicable:		5. Prior Judiciary Procurement Sole Source No.
T	W / /	(if applicable):
From: 12/01/25	To: 11/30/26	

## 6. Describe in detail the following:

a. The unique features, characteristics, or capabilities of the goods, service or construction.

The uninterruptible power supply (UPS) protects sensitive electronics during any power outages or any electrical disruptions. The UPS in the JDF electrical room provides stored electricity to keep the Security Resources Pacific Security Systems programs operating during power outages, electrical disruptions like voltage drops and power surges. These programs include security cameras and doors that are powered and controlled by JDF central control station.

Security Resources Pacific, Inc. has achieved authorization as a Network Harbor Enterprise level System Integrator and, as of this date, they are the only system integrator that has achieved Enterprise Level authorization in the state of Hawaii. The process of authorized account registration with authorized integrators is to provide both the end users and system integrators with account protection and assurance. This assurance is maintained as long as a) the system integrator maintains authorized status as a Network Harbor Dealer, and b) the end user/customer has not requested severance from their registered system integrator, and c) the end user has an active ASA support agreement as registered with the end user account. Security Resources has met all of the above criteria.

b. How the unique features, characteristics or capabilities of the goods, service or construction are essential for the department. The UPS battery back up provides a seamless transition in powering up JDF's security system until the generator is powered on, and/or until the power is restored, during an emergency or power outage. The UPS system is essential as it activates and powers the security system servers until the generator is operating and/or the power is restored, thus ensuring the security system is working continuously and effectively. The UPS will provide power to JDF's central control which operates security cameras and controls doors at the front of the facility.

Additionally, the UPS in the JDF electrical room needs to be replaced because of its age, and needs to be relocated due to the current UPS being housed in a ceiling rack at least 8-10 feet in the air, which makes it difficult for technicians to service and work on. The new UPS will be relocated in the JDF central control communications room. The current UPS battery backup in the JDF communications room is 15 years old and has been in service since JDF opened. The current UPS battery back up could fail to work at any moment due to age. Within the last year, several service calls were made by JDF due to issues with the security system as a direct result of the UPS not powering up. The UPS is essential for the safety and security of the juvenile detention facility.
